## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election without traverse of Group II, Claims 39-55 in the reply filed on 6/30/06 is acknowledged.

Claims 1-38 have been cancelled.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 39, 40, 42, 47, 49 and 53-54 are rejected under 35 U.S.C. 102(e) as being anticipated by Sayers.

The Sayers reference discloses a “collapsible bag” (40, 140, 240) having a “port” (41, 141, 241) and “select retention plates” (57, 157, 257), as claimed. Further, the method would be inherent during normal use of the device.

***Allowable Subject Matter***

Claims 41, 43-46, 48 and 50-52 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Cuthbertson et al., Campbell, Jr. and Moore et al. pertain to various bag dispensing systems, similar to Applicant's device.
